

THE TOQUERVILLE BRIDGE IS FINISHED

Completion of Structure Opens State Highway as far as Hurricane in Very Good Shape.

David Spilsbury of Toquerville, who was in town the first of the week with a load of fruit, brought the good news that the big bridge on the state highway just this side of Toquerville was completed, opening the road in good shape for automobiles as far as Hurricane. Mr. Spilsbury also stated that the roads in Dixie country were better than they are hereabouts.

Asked concerning the road between the Hurricane hill and the Cedar Ridge, in the direction of Kanab, Mr. Spilsbury stated that he understood that some of the people of the up-river settlements, who have land out at Short Creek and Cane Beds, had been out working on the road recently, but he could not say what the condition of the road now is.

"The Toquerville bridge," said Mr. Spilsbury, "has been a big undertaking for our local people. Some of us have contributed as high as \$100 each to the work, but we held on in the determination that we would not stop until the bridge was finished, something that is now accomplished." The contributions, Mr. Spilsbury stated, were chiefly in labor, with some hay, grain and other commodities.

The completion of this bridge places us within about two and a half hours of Hurricane by automobile, and will insure the fruit of that section of the country reaching us in much better condition.

After another long wait in Salt Lake City, Agent Trehan Jones at last succeeded in getting one of the 1916 six-cylinder Buick cars, and arrived home with it Wednesday evening. It is certainly a classy car, with ample power and the well-known Buick valve in head motor. It is a five-passenger body and the horse-power is 45.

S. J. Harris of Salt Lake City, the wholesale representative of Studebaker Company in this section, accompanied by County Agent Tolton of Beaver, were in Cedar yesterday en route to St. George. While here they established a local agency with S. J. Foster. The 1916 models will be ready for distribution August 1.

The Record has just learned of a pleasant birthday party and family reunion that was tendered John Chatterley of this city July 4th, on the occasion of his 80th birthday, at the canyon ranch of his daughter, Mrs. Lottie Perkins. About 30 or 40 of the children, grandchildren and great grandchildren of the old pioneer were present and a most enjoyable affair is reported.

Why Preserve Eggs

Because it pays in dollars and cents.

Every consumer of eggs can save money, and every producer of eggs can make money, by preserving the low-priced eggs of spring and summer for use or sale when high prices prevail during the fall and winter.

The bulk of the eggs sold on the open market during the winter months have been held over in cold storage from the previous spring's surplus. You do not need cold storage, use GOUDY'S EGG PRESERVER. It costs but two cents a dozen to preserve eggs. Go to the CEDAR CITY DRUG CO. and get some today.
